
Dr. CHANGHE YUAN

Department of Computer Science
Queens College/City University of New York
Queens, NY 11367
Homepage: <http://url.cs.qc.cuny.edu>

Status: Permanent Resident
E-mail: changhe.yuan@qc.cuny.edu
Phone: (718) 997-3484
Fax: (718) 997-3513

ACADEMIC BACKGROUND:

- Ph.D. Intelligent Systems, University of Pittsburgh, Pittsburgh, PA, 2006
Dissertation: Importance Sampling in Bayesian Networks: Principles, Algorithms, and Performance
Committee: Marek J. Druzdzel (Chair), Greg F. Cooper, Leon Gleser, Milos Hauskrecht, Eric P. Xing
- M.S. Intelligent Systems, University of Pittsburgh, Pittsburgh, PA, 2003
- M.E. Computer Science, Tongji University, Shanghai, China, 2001
- B.E. Computer Science, Tongji University, Shanghai, China, 1998
-

PROFESSIONAL EXPERIENCE:

Associate Professor	Computer Science, Queens College, CUNY	2012 – Current
Associate Professor	Computer Science & Engineering, Mississippi State University	2012
Assistant Professor	Computer Science & Engineering, Mississippi State University	2006 – 2012
Academic Visitor	IBM T. J. Watson Researcher Center	Summer 2008
Research Assistant	Intelligent Systems Program, University of Pittsburgh	2001 - 2006
Research Intern	Palo Alto Research Center (PARC), Palo Alto, CA	Summer 2003
Research Assistant	Computer Science Department, Tongji University	1998 - 2001

RESEARCH INTERESTS:

- *Machine Learning*: graphical models; structure learning; probabilistic inference; big data analytics
Practical graphical models such as Bayesian networks are reaching the size of thousands of variables. Building these models and reasoning with them become increasingly more difficult. The goal of this project is to develop novel inference and learning algorithms for Bayesian networks in large domains.
 - *Decision making under uncertainty*: influence diagrams; anytime decision making
Influence diagrams provide a natural framework for modeling the relations between random variables, decisions, and preferences; they also provide principled methods for finding an optimal decision policy that maximizes the expected utility. This project aims to relax the restrictive assumptions behind influence diagrams and develop novel algorithms and representations for solving general decision making problems under uncertainty.
 - *Interdisciplinary research*: quantitative finance; natural language processing; computational biology
We have genuine interest in interdisciplinary research, as we believe an application area typically presents its unique challenges and requires the development of new and improved methods. There are several ongoing collaborative projects on quantitative finance, natural language processing, and computational biology. A common theme of these projects is the application of state-of-the-art machine learning methods to discover useful information and knowledge from big data.
-

FUNDING:

- *Scalable Algorithms for Learning Bayesian Networks from Big Data*. PSC-CUNY # 67836-00 45. PI. \$12,000. July 1, 2014 to June 30, 2015.
- *A New Approach to Influence Diagram Evaluation*. NSF IIS- 1219114. Co-PI (PI: Eric A. Hansen, Mississippi State University). \$445,000. September 1, 2012 to August 31, 2015.
- *CAREER: Explanation, Decision Making, and Learning in Graphical Models*. NSF IIS-0953723. Sole-PI. \$455,233. August 16, 2010 to July 31, 2015.
- *A Supplemental Funding to Catalyze an International Collaboration*. NSF OISE and CISE. Sole-PI. \$25,000. May 16, 2012 to August 15, 2012.
- *Modeling and Simulation of Complex Biological Systems (Computational Biology)*, a subcontract of NSF EPS-0903787. Co-PI (PI: Susan Bridges, Mississippi State University). \$1,092,450. September 1, 2009 to August 31, 2014.
- *SGER: A Framework for Explanation in Bayesian Networks*. NSF IIS-0842480. Sole-PI. \$63,203. September 1, 2008 to February 28, 2010.
- *An Intelligent Collaborative Learning System*. NSF MS-EPSCoR Undergraduate Research Fund. Sole-PI. \$2,000. Summer 2008.

AWARDS & HONORS:

- Best Paper Award, the FLAIRS Conference, 2015
- NSF CAREER Award, 2010
- State Pride Faculty Award, 2010, 2011
- MS State Honors Faculty, 2010
- Upsilon Pi Epsilon Honor Society in Computer Science (UPE), 2008
- Andrew Mellon Pre-doctoral Fellowship, University of Pittsburgh, 2004, 2005
- Faculty of Arts and Sciences Fellowship, University of Pittsburgh, 2001, 2002
- Excellent Graduate Student Award, Tongji University, 2000
- Graduate Student with Honor, Tongji University, 1998
- De'An Scholarship, Tongji University, 1996
- People Fellowship, Tongji University, 1995-1998

PROFESSIONAL SERVICES:

Panelists:

- National Science Foundation, 2009, 2010 (twice)

Conference Organizing Committees:

- Local arrangement chair, Annual Conference on Uncertainty in Artificial Intelligence (UAI-2016)
- Local arrangement collocated events chair, International Joint Conference on Artificial Intelligence (IJCAI-2016)
- Publicity chair, Annual Conference on Uncertainty in Artificial Intelligence (UAI-2014)

Area Chairs:

- International Conference on Tools with Artificial Intelligence (ICTAI-16), 2016

Session Chairs:

- Annual Conference on Uncertainty in Artificial Intelligence (UAI), 2014, 2015
- AAAI Conference on Artificial Intelligence (AAAI), 2013
- International Symposium on Artificial Intelligence and Mathematics (ISAIM), 2010
- International Joint Conference on Artificial Intelligence (IJCAI), 2009
- Canadian Conference on Artificial Intelligence (CAI), 2007

Conference Senior Program Committees:

- International Joint Conference on Artificial Intelligence (IJCAI), 2013, 2016
- AAAI Conference on Artificial Intelligence (AAAI), 2016

Conference Program Committees:

- Annual Conference on Neural Information Processing Systems (NIPS), 2016
- Annual Conference on Uncertainty in Artificial Intelligence (UAI), 2009, 2011, 2012, 2013, 2014, 2015, 2016
- AAAI Conference on Artificial Intelligence (AAAI), 2010, 2013, 2014, 2015
- International Joint Conference on Artificial Intelligence-Machine learning track (IJCAI-ML), 2015
- International Joint Conference on Artificial Intelligence (IJCAI), 2009, 2011, 2013

SOFTWARE DEVELOPMENT:

- **URLearning** (You Are Learning): A C++/Java software package that implements a suite of state of the art search algorithms developed by the URL Lab for learning optimal Bayesian networks.
 - **URLearning Weka**: a Windows installable software package that integrates the learning algorithms in **URLearning** into the popular machine learning software—Weka.
 - **SMILE**[®] (Structural Modeling, Inference, and Learning Engine): A fully portable library of C++ classes implementing graphical decision-theoretic methods, such as Bayesian networks and influence diagrams, directly amenable to inclusion in intelligent systems; In particular, I was responsible for the development of the following inference algorithms: EPIS sampling, Annealed MAP, Hybrid LW, Hybrid EPIS, Hybrid LBP.
 - **MRE** (Most Relevant Explanation): exact and approximate algorithms for solving MRE, a new inference task in Bayesian networks that finds the most relevant partial instantiation of target variables as the explanation for given evidence.
-

TEACHING EXPERIENCES:

Instructor, City University of New York, New York, NY

- CSCI 363/780 Artificial Intelligence, Spring 2016 (Queens College)
- CSC 47011 Artificial Intelligence, Spring 2016 (Graduate Center)
- CSCI 363/780 Machine Learning in Quantitative Finance, Winter 2016 (Queens College)
- CSCI 363/780 Artificial Intelligence, Fall 2015 (Queens College)
- CSCI 3813/780 – Machine Learning in Quantitative Finance, Spring 2015 (Queens College)
- CSc 84010 – Machine Learning in Quantitative Finance, Spring 2015 (Graduate Center)
- CSCI 363/780 – Artificial Intelligence, Fall 2014 (Queens College)

- CSCI 3813/780 – Machine Learning, Spring 2014 (Queens College)

- CSE 4633/6633 -- Artificial Intelligence, Fall 2007
- CSE 9633 -- Topics in Artificial Intelligence: Probabilistic Graphical Models, Spring 2007
- CSE 2813 -- Discrete Structures, Fall 2006

Teaching Assistant, University of Pittsburgh, Pittsburgh, PA

- ISSP 2250 -- Research Design, Fall 2005

MENTORING ACTIVITIES:

Current Students:

- Xiaoyuan Zhu (QC CS Research associate), “Efficient Bayesian Inference in Graphical Models”, 2013-2015
- Cong Chen (CUNY CS PhD student, pre qualify exam, Major advisor), “Methods for Reasoning and Decision Making under Uncertainty”, expected 2018.

Graduated Students:

- Xiannian Fan (CUNY CS PhD student, Major advisor), “Scaling Up Bayesian Network Learning”, Spring 2016.
- Arindam Khaled (MSU CS PhD student, Dissertation advisor), “Solving Influence Diagrams Using Branch and Bound Search”, December 2015
- Brandon Malone (MSU CSE PhD student, Major advisor), “Learning Optimal Bayesian Networks with Heuristic Search”, Dissertation defended on April 24, 2012.
- Zhifa Liu (MSU CSE MS student, Major advisor), “Empirical Evaluation of Scoring Functions for Bayesian Network Model Selection”, MS Thesis, April 2012.
- Hohyun Lee (MSU ISE PhD student, Minor advisor. Principal supervisor: Lesley Strawderman), “Pedestrian Dynamics: Modeling and Analyzing Cognitive Processes and Traffic Flows to Evaluate Facility Service Level”, December 2011.

- Jeremy Davis (MSU CSE MS student, course option, now at ERDC), August 2011.
- Joe MacLean (MSU CSE MS student, course option, now at ERDC), August 2011.
- Xiaojian Wu (MSU CSE MS student, now at UMass Amherst), “A Heuristic Search Algorithm for Learning Optimal Bayesian Networks”, MS thesis, 2010.
- Heejin Lim (MSU CSE undergraduate student, now at KAIST), “Local Search Methods for Solving Most Relevant Explanation”, BS project, 2010

Dissertation Committees:

- Suhua Wei (CUNY Earth Environmental Sciences PhD student, Major advisor: Chuixiang Yi), The terrestrial net ecosystem carbon exchange (NEE) model
- Zimi Li (CUNY CS PhD student, Major advisor: Simon Parsons), Formal Argumentation Schemes
- Hua Liu (HKUST CSE PhD student, Major advisor: Nevin Zhang), Unidimensional clustering using latent tree models. 2015
- Srishti Srivastava (MSU CSE PhD student, Major advisor: Ioana Banicescu), “Evaluating the Robustness of Resource Allocations Obtained via Performance Modeling with Stochastic Process Algebra”, 2014
- Yongjie Cai (CUNY Graduate Center CS PhD student, Major advisor: Ping Ji), Network Monitoring And Data Analysis In Wireless Networks, expected 2015.
- Ranjit Kumar (MSU Vet Med Sci PhD student, Principal supervisor: Baidun Nanduri), “Development of Computational Tools and Resources for Systems Biology of Bacterial Pathogens”, 2011
- Nan Wang (MSU CSE PhD student, Major advisor: Susan Bridges), “Novel Algorithms for Structural Annotation of Prokaryote Genomes”, 2009

Preliminary Examination Committees:

- Dezhong Deng (CUNY CS PhD student, Major advisor: Liang Huang), 2015
- Mingbo Ma (CUNY CS PhD student, Major advisor: Liang Huang), 2015
- James Cross (CUNY CS PhD student, Major advisor: Liang Huang), 2015
- Kai Zhao (CUNY CS PhD student, Major advisor: Liang Huang), 2015
- Guozhen An (CUNY CS PhD student, Major advisor: Andrew Rosenberg), 2015
- Ligon Liu (CUNY CS PhD student, Major advisor: Robert Haralick), 2015
- Zimi Li (CUNY CS PhD student, Major advisor: Simon Parsons), 2013
- Cheuk Man Chan (CUNY CS PhD student, Major advisor: Robert Haralick), 2013
- Ranjit Kumar (MSU MedSci PhD student, Major advisor: Bindu Nanduri), 2010
- Hohyun Lee (MSU ISE PhD student, Major advisor: Lesley Strawderman), 2009
- Nan Wang (MSU CSE PhD student, Major advisor: Susan Bridges), 2008
- Peter Lamborn (MSU CSE PhD student, Major advisor: Eric Hansen), 2007

MS Oral Examination Committees:

- Dilip Gautum (MSU CSE PhD student, Major advisor: Andy Perkins), 2011
- Dae Glendowe (MSU CSE MS student, Major advisor: David Dampier), 2011
- Blake Wall (MSU CSE MS student, Major advisor: David Dampier), 2010

PROFESSIONAL TALKS:

- *Advances in Learning Optimal Bayesian Networks Using Admissible Heuristic Search*. Department of Computer Science, CUNY Graduate Center, New York, NY. Nov. 20, 2014.
- *Learning Optimal Bayesian Networks: Novel Formulations and Efficient Algorithms*. Department of Electrical Engineering, Rensselaer Polytechnic Institute, Troy, NY. Nov. 7, 2012
- *Methods and Algorithms for Learning and Reasoning with Uncertainty*. Department of Computer Science,

CUNY Graduate Center, New York, NY. Sep. 13, 2012.

- *Learning Optimal Bayesian Networks: Novel Formulations and Efficient Algorithms*. Department of Computer Science, CUNY Queens College, Flushing, NY. Apr. 9, 2012.
- *Bayesian Networks: Inference, Learning, and Application*. Department of Computer Science and Engineering, Mississippi State University, Mississippi State, Mississippi. Oct 7, 2011.
- *Bayesian Networks: Inference, Learning, and Applications*. Department of Computer Science, University of Massachusetts, Lowell. April 12, 2011.
- *Solving Influence Diagrams Using Heuristic Search*. Department of Computer Science and Engineering, Mississippi State University, Mississippi State, Mississippi. Oct 21, 2009.
- *Most Relevant Explanation in Bayesian Networks*. Department of Computer Science, University of Mississippi, Oxford, Mississippi. March 24, 2009.
- *Most Relevant Explanation in Bayesian Networks*. Department of Computer Science and Engineering, Mississippi State University, Mississippi State, Mississippi. March 4, 2009.
- *Bayesian Modeling and Reasoning for Risk Management*. IBM Beijing Research Lab. Beijing, China. December 17, 2008.
- *Reasoning and Explanation in Bayesian Networks*. Chinese Academy of Science. Beijing, China. December 16, 2008.
- *A General Framework for Generating Explanations in Bayesian Networks*. Intelligent Systems Program, University of Pittsburgh, Pittsburgh, Pennsylvania. October 3, 2008.
- *Graphical Modeling Techniques for Computational Biology*. Institute of Digital Biology, Mississippi State University, Mississippi State, Mississippi. November 14, 2007.
- *Finding Explanations in Bayesian Networks*. Department of Computer Science and Engineering, Mississippi State University, Mississippi State, Mississippi. October 17, 2007.
- *Making Inference in Bayesian Networks Feasible*. Center for Computational Learning Systems, Columbia University, New York. April 20, 2006.
- *Making Inference in Bayesian Networks Feasible*. Department of Computer Science and Engineering, Mississippi State University, Mississippi State, Mississippi. April 5, 2006.
- *Making Inference in Bayesian Networks Feasible*. Department of Computer Science and Lewis-Sigler Institute for Integrative Genomics, Princeton University, Princeton, New Jersey. March 22, 2006.
- *Hybrid Bayesian Networks: Representation and Reasoning*. Intelligent Systems Program, University of Pittsburgh, Pittsburgh, Pennsylvania, November 18, 2005.
- *Importance Sampling Algorithms for Bayesian Networks: Principles, Algorithms, and Performance*. Intelligent Systems Program, University of Pittsburgh, Pittsburgh, Pennsylvania, November 5, 2004.
- *EPIS-BN: An Importance Sampling Algorithm Based on Evidence Pre-propagation*. Intelligent Systems Program, University of Pittsburgh, Pittsburgh, Pennsylvania, September 5, 2003.
- *Parsing Bibliography Citations by Using Probabilistic Multi-agent System*. Xerox Palo Alto Research Center, Palo Alto, California, June 29, 2003.
